# Essential Oils

# Our Inspiration, Your Innovation.

Sensient Technologies is a leading global manufacturer and marketer of colors, flavors, and other specialty ingredients. Sensient uses advanced technologies and robust global supply chain capabilities to develop specialized solutions for food and beverages, as well as products that serve the pharmaceutical, nutraceutical, cosmetic, and personal care industries.

At Sensient Essential Oils we distribute and produce one of the largest ranges of essential oils on the market, guaranteeing a crop to crop supply strategy based on five pillars:

Provide innovative products that lend a *just picked from nature* sensory experience.

Partner with farmers and collaborate responsibly with *seed-to-shelf* programs.

Offer tailor made essential oils thanks to our extensive experience and know-how, allowing us to meet specific needs or application requirements.

Execute a flawless service: strict compliance with delivery and lead times, quality assurance, regulatory documentation and sampling order.

Cooperate with the European Federation of Essential Oils (EFEO), and The International Federation of Essential Oils and Aroma Trades (IFEAT) in setting stringent standards.

We want to champion your business and collaborate for your success by being your one stop partner who's with you every step of the way. To begin your journey, introduce yourself to our over 170 varieties.

# Essential Oils
